### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. Claims 1-11 are allowed.
3. Antecedent support for the claimed lower limit carbon amount is provided at page 9, line 15 of the Specification.
4. Applicant has filed on 22 August 2005 a terminal disclaimer with respect to parent application Serial Number 09/806,130, now United States Patent 6,635,361. Hence, double patenting rejections over this patent are obviated.
5. Applicant requested that JP 10-168551, provided on the IDS of Paper Number 20030708, be considered. The accompanying PTO 892 cites this reference. A copy of the obtained reference and translation are provided.
6. Rejection over Tomida USP 5,714,017 is not appropriate because Tomida does not disclose or suggest the claimed carbon levels in conjunction with the claimed B of Claim 1 or the claimed Ti, Nb, and/or V of Claim 5. It is remarked that Claims 5, 6, and 11 are interpreted to require some finite amount of Ti, Nb, and/or V. The total amount of these elements is 0.08 % by weight or less.
7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
